

Ver. 1

# PhonoPhönix

## LED Target Light

LED spare part for Technics SL-1200 / SL-1210 MK2 provides perfect warm-white illumination of the stylus during every mix.

# Product Information

## Product Name

LED stylus target light compatible with Technics SL-1200 / SL-1210 MK2 turntables

## Product Type

Professional spare part for turntables

## Description

This product replaces the original stylus illumination of Technics turntables with a long-lasting warm-white LED.

For installation by qualified personnel only; not intended for end users or standalone operation.

## Electric Characteristics

- Operating voltage: 21 V DC
- Current consumption: 15 mA

## Technical Characteristics

- Electronic spare part in the form of a PCB with mounted components
- Compact design with SMD LED and resistors
- Plastic spacer for precise installation

## Compatibility

- Technics SL-1200 / SL-1210 MK2 turntable

## Package Contents

1 × pre-assembled LED stylus illumination PCB with GND / positive connection cables

## Installation

1. Remove the original lamp assembly from the turntable
2. Open the housing and remove the old lamp
3. Desolder the resistor from the switch
4. Insert the LED PCB
5. Solder the GND cable to a switch contact
6. Solder the PCB's positive cable to the positive cable of the connector
7. Close the housing
8. Reinstall the lamp assembly into the turntable
9. Perform a function test

## Manufacturer

Ilia Frolov - PhonoPhönix  
Hallesche Str. 7A  
10963, Berlin  
Germany
